C 400 BC

Roman Cal.

They complicated their lives because of their superstition that even numbers were unlucky. Hence their months were 29 or 31 days long, with exception of Feb. which had 28 days.

4 mos of 31 days + 7 mos of 29 d + 1 mo of 28 d
= 355 days. Therefore they invented an extra month called MEREDONIVS of 22 or 23 days. It was added every 3rd
